

K-Love Christian Radio in Oklahoma City is outstanding in the music it serves up along with the encouragement. The music itself is also very encouraging - people need to be encouraged to do better and to have hope that things CAN be better for them and that there is purpose in life. if this FM station is turned over to an LPFM much of this will be lost. As a listener supported station there are no commercials to take away from the uplifting music. This country and this city are seriously in need of this! Please don't change this!
